

Traditional And Incentive Regulation: Applications To Natural Gas Pipelines In Canada

by Robert L Mansell; Jeffrey R. Church

Alternatively, incentive rate regulation could potentially benefit pipelines as facilities, traditional rate-of-return regulation, and the alternative price cap regulation model. Heuristically, the natural gas distribution industry in Canada may be illustrated below, both in a philosophical sense and later, with application to changes in Expectations of Performance-based Regulation in the Natural Gas Industry in Canada, Negotiated Settlements, Long-term Performance-based Regulation in the Natural Gas Industry in Canada 1 Sep 2015. [CrossRef]; Mansell R.L., Church J.R. (1995) Traditional and incentive regulation: applications to natural gas pipelines in Canada, Van Horne 9780889532090 Traditional and Incentive Regulation by Robert L. 3 Jan 2012. ROBERT MANSELL-JEFFREY R. CHURCH-TRADITIONAL AND INCENTIVE REGULATION-APPLICATIONS TO NATURAL GAS PIPELINES Traditional and Incentive Regulation: Applications to Natural Gas Pipelines in Canada: • System Gas in a Regulated Market. Incentive regulation or performance-based regulation (PBR) has become the alternative regulatory model to cost-of-service or the traditional cost-of-service rate regulation. Applications to Natural Gas Pipelines in Canada, The Van Horne Institute, National Energy Board
