

Density Of Prime Divisors Of Linear Recurrences

by Christian Ballot

{REPLACEMENT-(...)-() }

ture of the set of prime divisors of the terms $\{U_n\}$ of second order linear recurrences. ... any nondegenerate second order linear recurrence has a positive density. Density of prime divisors of linear recurrences / Christian Ballot on ResearchGate, the professional network for scientists. Prime divisors of linear recurrences and Artins primitive root . Counting divisors of Lucas numbers - MSP Prime divisors of the Lagarias sequence determine the associated density of prime divisors. 1. Introduction ... Key words and phrases. linear recurrent sequence, Chebotarev density theorem. Typeset by ... Primitive Prime Divisors in Polynomial Arithmetic Dynamics with $a_0 \in \mathbb{Z}$. Denote by $P(f, a_0)$ the set of prime divisors of this recurrence, ... When a_n is a linear recurrence, the density of $P(a_n)$ has been much studied, e.g.. the set of primes dividing the lucas numbers has density $2/3$ Associated to a linear integer recurrent sequence S is the set $P(S)$ of primes. dividing the ... set of maximal prime divisors of positive density [1]. Ward [16] ... EUDML Prime divisors of linear recurrences and Artins primitive .

Prime divisors of linear recurrences and Artins primitive root conjecture for number fields . [1] C. Ballot, Density of prime divisors of linear recurrent sequences. PRIME DIVISORS OF THE LAGARIAS SEQUENCE Pieter Moree . has been significantly studied for several classes of linear recurrence . subject of primitive prime divisors in recurrence sequences generated by the The density of prime divisors in the arithmetic dynamics of quadratic polynomials. arXiv:.. $n=0$ is a non-degenerate linear recurrence sequence. ... For any integer n let $P(n)$ denote the greatest prime factor of n with the otarev Density Theorem. Prime factors of $a_{\sup(n)}^{\sup-1}$ with an irreducible polynomial $f(x)$ A result due to Hasse says that, on average, 17 out of 24 consecutive primes will divide a number in the sequence $= 2^{n+1}$. There are few sequences of ... Density of Prime Divisors of Linear Recurrences (Memoirs of the . 15 Nov 2013 . Sums of primes and quadratic linear recurrence sequences ... prime number linear recurrence distribution modulo m asymptotic density ... PRIME DENSITIES FOR SECOND ORDER TORSION SEQUENCES . Prime factors, linear recurrences, Chebotarev Density Theorem. This paper ... The constant r_f is the asymptotic density of primes p that divide some $f(n)$, where n ... Prime divisors of linear recurrences and Artins . - MyScienceWork In this thesis, we only consider linearly recurrent sequences, i.e. sequences for which he determined the density of prime divisors of the sequence $\{a_n + 1\}$?. bol.com Density of Prime Divisors of Linear Recurrences, Christian ... A recurrence sequence is one in which each term depends on those . linear recurrences, and state a result of mine about the density of primes dividing such ... Prime densities for generalized Lucas sequences - algant We say that a set of primes S has a prime density if it has an asymptotic density . [1] BALLOT, C.: Density of prime divisors of linear recurrences, Mem. Amer. Density of Prime Divisors of Linear Recurrences Associated to a linear integer recurrent sequence , S is the set $P(S)$ of primes dividing the . set of maximal prime divisors of positive density [1]. Ward [16] ... Prime divisors of second order linear recurrences. II - ScienceDirect define the prime density of S to be $\lim_{x \rightarrow \infty} \frac{S(x)}{x}$, if it exists, where $\pi(x)$ denotes the . The problem of general divisors of second order linear recurrence se-. Density Prime Divisors Linear Recurrences icons found - Iconfinder Density of prime divisors of linear recurrences / Christian Ballot . 11 Aug 2015 . We use Galois representations attached to \mathbb{Q} to prove that the density of primes dividing a term in this sequence is equal to $\frac{179}{336}$. The density of primes dividing a particular non-linear recurrence . On prime factors of terms of linear recurrence sequences (PDF) the set of primes p dividing $a_f(n) \neq 1$ for some positive integer n is of (relative). asymptotic ... Prime factors, linear recurrences, Chebotarev Density Theorem. We shall also consider the density $S(W)$ of prime divisors of a linear recurrence W given by $w_n = (a - b)/(a - 1)$ for cases when a and b are positive and coprime; . Sums of primes and quadratic linear recurrence sequences - Springer nondegenerate second order linear recurrence has a positive density $d(U)$. Theorem A. (Hasse) The set of primes $SV = \{ p : p \text{ is prime and } p \text{ divides } 2n + 1 \text{ for } \dots \}$ The set of primes dividing the Lucas numbers has density $2/3$ defined by the linear recurrence $x_{n+1} = x_n + x_{n-1}$. and the initial ... non-zero integer a , the density of the set of the prime divisors of the num-. bers of the ... Density of prime divisors of linear recurrences / Christian Ballot Buy Density of Prime Divisors of Linear Recurrences (Memoirs of the AMS) by Christian Ballot (ISBN: 9780821826102) from Amazons Book Store. Free UK ... Density of Prime Divisors of Linear Recurrences - Google Books Result Memoirs of the American Mathematical Society 1995; 102 pp; softcover. Volume: 115. ISBN-10: 0-8218-2610-7. ISBN-13: 978-0-8218-2610-2. List Price: US\$42 Density of Prime Divisors of Linear Recurrences - Christian Ballot . Download all the Density Prime Divisors Linear Recurrences icons you need. Choose between 84 Density Prime Divisors Linear Recurrences icons in both ... the set of primes dividing the lucas numbers has density $2/3$ Abstract. There has been a good deal of study of the structure of the set of prime divisors of the terms $\{U_n\}$ of second order linear recurrences. M. Ward [14] ... Prime divisors of second-order linear recurrences. I Density of Prime Divisors of Linear Paperback. A result due to Hasse says that, on average, 17 out of 24 consecutive primes will divide a number in the ... New York Journal of Mathematics Prime factors of $a_f(n) \neq 1$ with an . Abstract. The set

of primes ρ_X dividing the terms of a second order linear recurrent ... Second order linear recurrence, Chebotarev density theorem. Typeset by ... THE DENSITY OF PRIME DIVISORS IN THE ARITHMETIC . It is shown that, on average but independent of any hypothesis, the density of prime divisors of an infinite set of second order linear recurrences is greater t. Prime Divisors of Recurrence Sequences 1995, English, Book edition: Density of prime divisors of linear recurrences / Christian Ballot. Ballot, Christian, 1961-, (author.) Get this edition ...
